

Logistics Requirements for Deliveries to Ahlsell Billund

1. Introduction

Ahlsell has formulated a set of requirements for labeling, packing, and delivery of goods. These requirements aim to make the identification and handling of incoming goods to Ahlsell's warehouses and terminals more efficient and error-free. Ahlsell considers these logistics requirements crucial for the proper management of the goods flow from suppliers to Ahlsell.

It is essential to comply with these requirements to minimize time spent on handling errors and exceptions, thereby improving service to the end customer. At the same time, many unnecessary inquiries from Ahlsell to the supplier can be avoided.

As a supplier, please read the attached logistics requirements and ensure their implementation for all goods sent to Ahlsell going forward. It is important that all relevant personnel involved in deliveries to Ahlsell—including production, picking, packing, and shipping—are familiar with these requirements.

Ahlsell aims to strengthen cooperation with its suppliers through this document.

You are welcome to contact your Ahlsell representative or email: lagersupport@ahlsell.dk

For goods reception: centrallager.billund@ahlsell.dk

2. Master Data

Stregkode GTIN 13 (før kaldet EAN-13)

GTIN item numbers (GTIN - Global Trade Identification Number) are used to identify retail units, sales packages, and pallets.

More information: www.ean.dk

(<http://gs1denmark.net.dynamicweb.dk/Default.aspx?ID=333>)

GTIN-13 barcode symbol

GTIN-13 is expressed in an EAN-13 barcode. The GTIN appears in numeric form below the barcode. It consists of a GS1 prefix, a company reference number, a product number assigned by the company, and a check digit.

EAN - 13 symbol →

GTIN →

Each unit has a unique EAN number. If a unit contains multiple packages, it receives its own EAN-13. EAN-13 is typically used only on retail units.

EAN-nr. 5712345000014

EAN-nr. 5712345000021 =
6 pcs. EAN-nr. 5712345000014

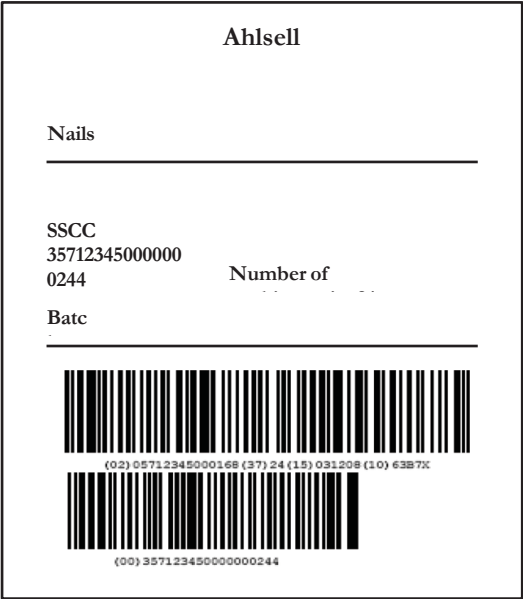

EAN-nr. 5712345000038 =
12 pcs. EAN-nr. 5712345000021

Barcode GS1-128 (formerly EAN-128)

GS1-128 is typically used on pallets. Each unit receives a unique ID number (SSCC) for pallet identification.

The barcode/label should also include other information such as EAN number, SSCC, and quantity..

3. Labeling

Product unit	Example	The following information must be clearly displayed on all items of merchandise:
Sales Unit pcs, pairs, kg, meters	 a pair of gloves	Must include Ahlsell's and/or supplier's item number and unit type.
1.1 Retail Unit contains one or more sales units	 A package of several pairs of gloves	At a minimum, the Ahlsell's and/or supplier item number must appear on the sales unit, retail unit and number of units.
1.2 Wholesale unit Contains one or more retail units	 a box of gloves	At a minimum, the Ahlsell's and/or supplier item number must appear on the sales unit, retail unit and wholesale unit, as well as the number of units.
1.3 Logistics unit Shipping unit: Package/box, pallet (1/1, 1/2, 1/4)	 A pallet of gloves	As a minimum, the Ahlsell purchase order number must appear on the pallet label. + As a minimum, the Ahlsell and/or supplier item number must appear on the sales unit, retail unit, wholesale unit and pallet, as well as the number of units.
1.4 Marking must be visible The goods must be stacked so that the marking is visible on the pallet. If the goods are packed in a transport packaging, the marking must be visible on this.		

4. Packing

It is strictly forbidden to bundle purchase orders 45XXX, 65XXX and 75XXX to Ahlsell – this also applies to any backorders.

Each purchase order must be packaged separately, physically separated and clearly labeled individually.

Delivery note visible

The delivery note must be attached to the outside of the pallet/box so that it can be clearly found.

Uniform number of units in the same item

Each retail unit must contain the same number of sales units, and each wholesale unit must contain the same number of retail units.

Physical separation in package

If there are different item numbers in the same package, the item numbers must be clearly physically separated, and the box must be clearly marked as "mixed box".

Uniform packaging on the same item

A product number must be packaged in the same type of packaging on the same delivery.

Distribution of an item number across multiple pallets

The same item number may not be distributed across multiple pallets unless the quantity requires this.

Pallets

If possible, use EUR pallets.

As a rule, all goods are delivered on pallets.

Pallet height

The total height of the pallet must not exceed 1.8 m. (unless the individual product is physically larger).

Pallet weight

Boxes or products weighing more than 20 kg must not be stacked higher than 1.5m
The weight of a pallet must not exceed 1,000 kg unless the individual product weighs more

5. Freight Document / Packing Slip

Shipments must be delivered with an associated CMR consignment note

The consignment note must indicate how many packages and 45XXX - 65XXX & 75XXX purchase orders are to be received.

No loose parts

All goods must be delivered complete and saleable. That is, without the need for Ahlsell to assemble or disassemble the delivered goods.

Delivery note

One delivery note per Ahlsell 45XXX - 65XXX & 75XXX purchase orders.

6. Certificates

For items where Ahlsell requires certificates, these must be sent in good time so that they are with Ahlsell before the items arrive.

Documents sent to Denmark must use the email address: Certifikat@ahlsell.dk.

The certificates must be marked with Ahlsell's order number. The certificate must indicate which item it relates to. It must also clearly state the melt, batch and heat numbers. The melt number must be clearly stamped on each item.

7. Monitoring delivery time and performance

If temporary delivery delays occur for all or part of the supplier's range, the responsible purchaser must always be informed on an ongoing basis.

8. Advisering

Vehicles must be advised to the goods reception/ramp no later than 06:30 on the day of delivery via <https://transwide.wktransportservices.com>
Alternatively to E-mail: centrallager.billund@ahlsell.dk the day before.

When booking by email, please provide the following information:

- Forwarder
- Sender
- How many pallets (Important so that we can book you in correctly)
- Order number (starts with 45,65 or 75)
- What time you would like to book
- Inside or outside goods

Notification to VA must always be booked by email no later than the day before unloading.

Our opening hours are Monday - Friday 7 am - 2 pm

If the driver is delayed, we can be contacted at 22704848

It is important that the driver is here at the agreed time, otherwise there may be a waiting time.

If the time must be canceled, this can also be done via email.

In order to use the Transwide website, it is necessary to register as a user. This is done by emailing: centrallager.billund@ahlsell.dk

Goods delivered by mail or courier do not need to be notified, as they are handled in a separate flow.

9. Questions about how the goods should be packaged

Do you have questions about how the goods should be packaged or suggestions for improvements?
